Authorization to Release Abnormal Results

I hereby authorize the OFA to release the results of its evaluation of the animal described on this application to the public if the results are abnormal _____ (initials of registered owner).

A photocopy of the test result is required to process this application.

Veterinary Instructions

The Brainstem Auditory Evoked Response (BAER) test is the only accepted method of diagnosis. Bone stimulation transducer may be used in addition when conduction deafness is suspected.

OFA recommends this test be performed by board certified veterinary neurologists, but will accept test results from experienced veterinarians, neuroscience professionals, and audiologists. One test suffices for the lifetime of the animal.

Bilateral hearing passes the test. Unilateral or bilateral deafness fails.

☒ Hearing (Normal) ☐ Equivocal ☐ Deaf _____ Bilateral _____ Unilateral

☒ I certify that the above result is valid for this animal

Tattoo/Microchip Verification: ☒ I DID verify on this dog ☐ I DID verify on all puppies on attached litter form ☐ I DID NOT verify

Veterinarian/Audiologist Signature: *[Signature]* Date: **Apr 5/11**
